ULTRA SLIM

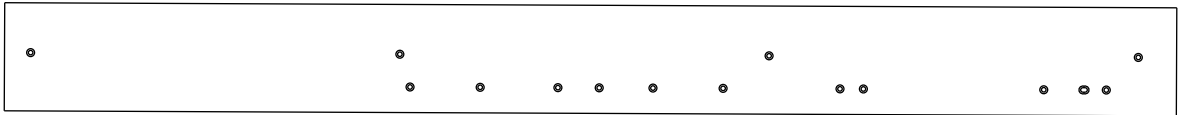

European and International Standard

rev.A - English

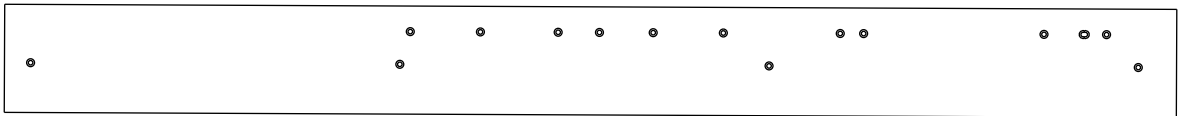

Content:

Tubes x2

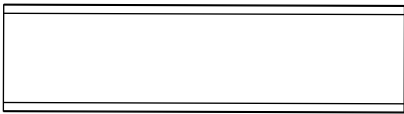

Left

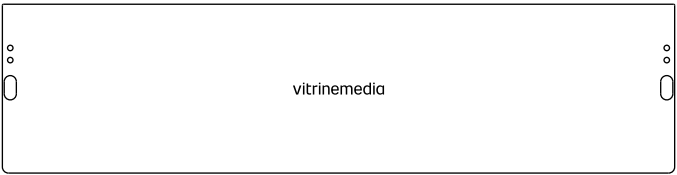

Right

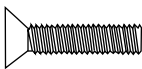

Side covers x2

Magnetic covers x2

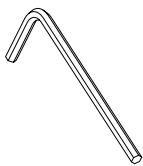

Base x1

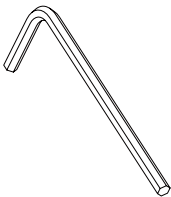

Screws M6x16mm x16

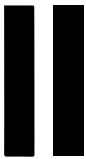

Screws M8x25mm x4

Allen key S4 x1

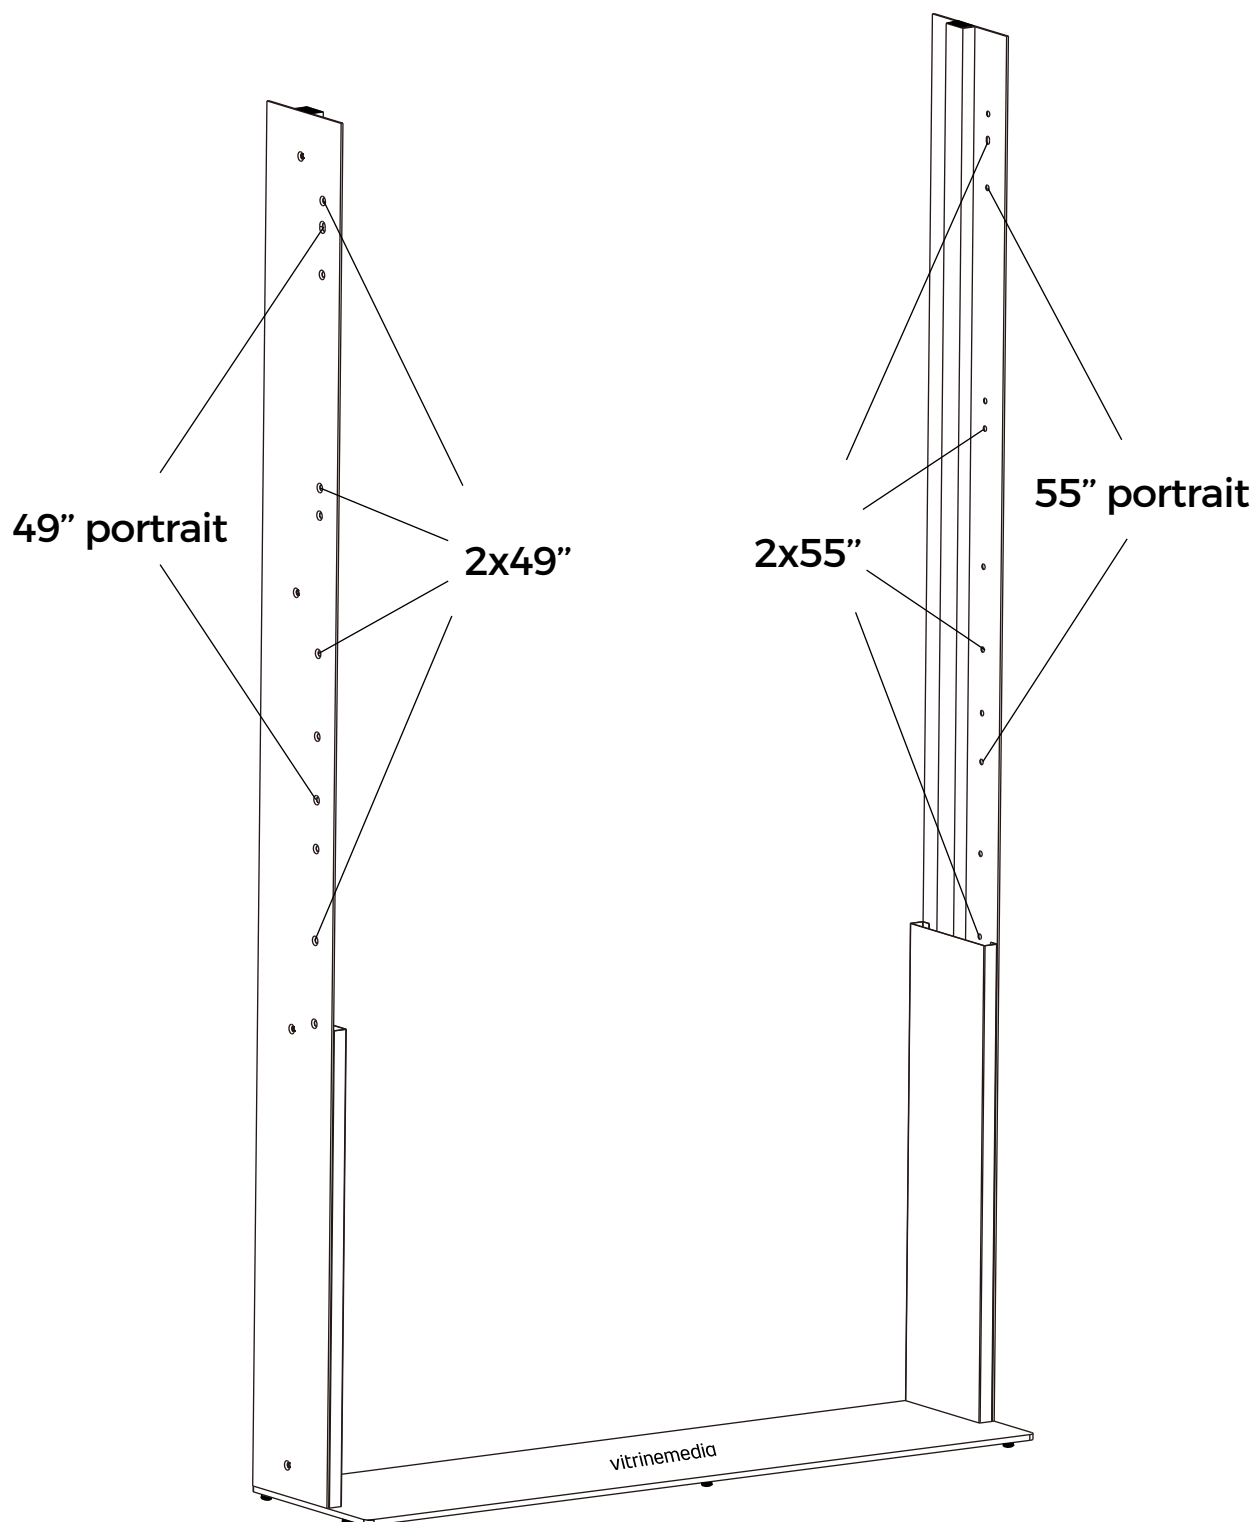

Allen key S5 x1

Velcro x8

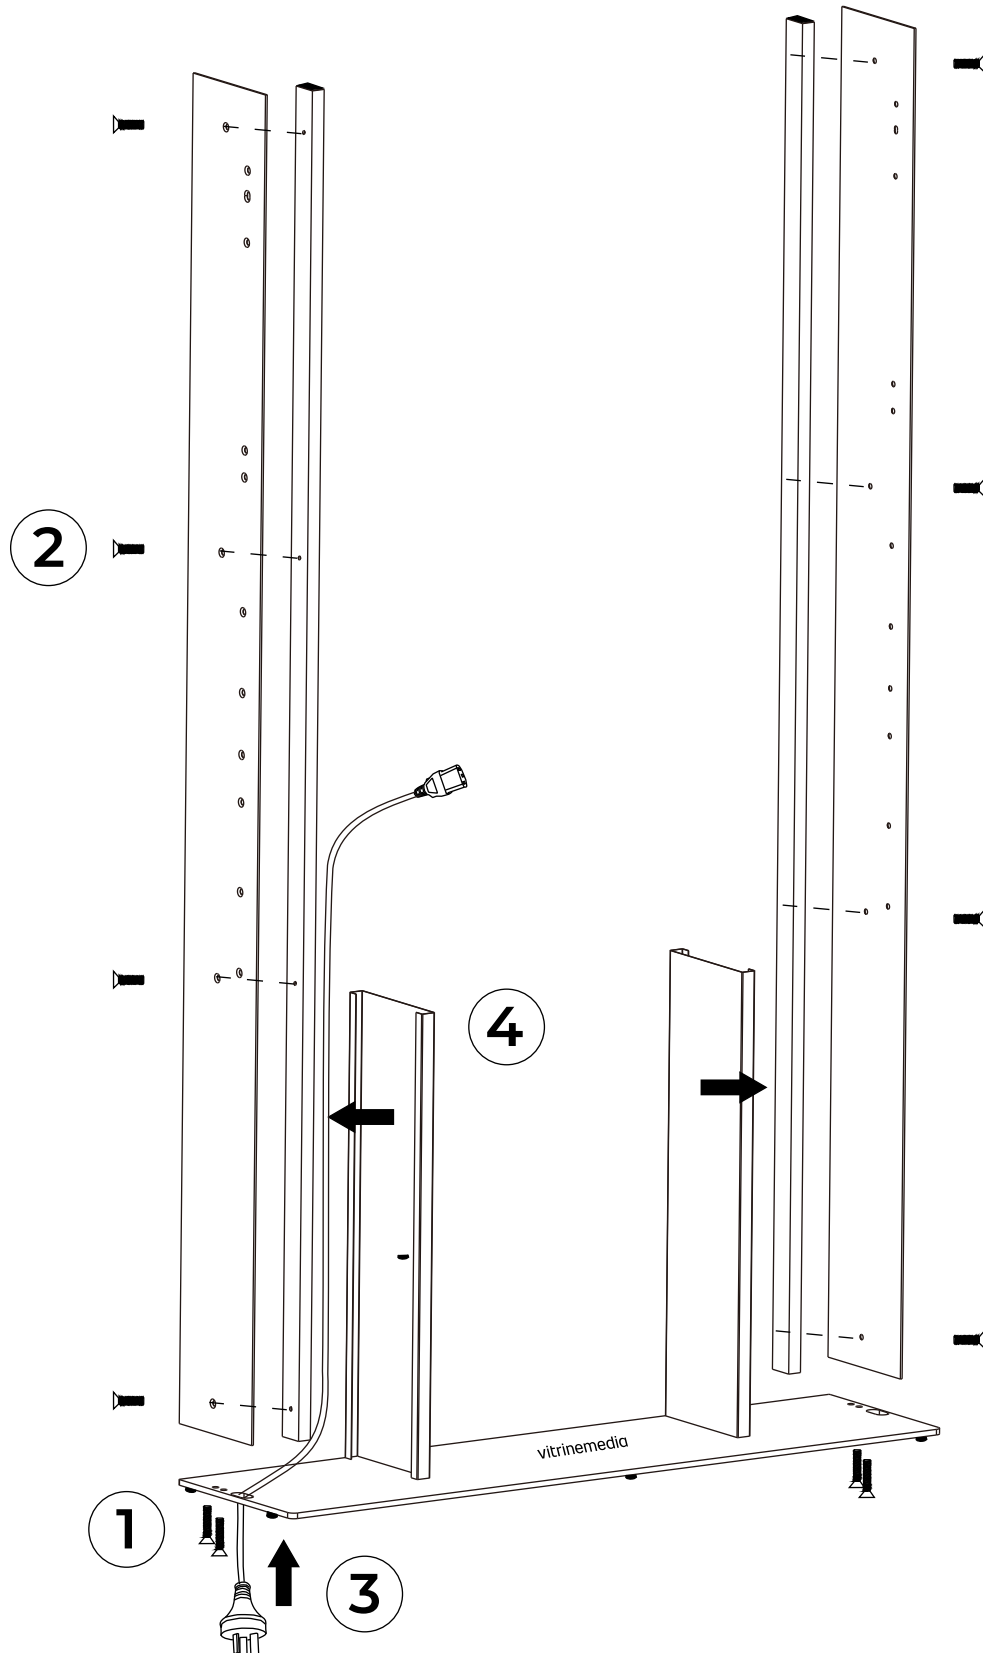

Configurations:

The side covers and the tubes are the same for all the versions. They can be installed with different formats, 2x49", 2x55", 49" portrait and 55" portrait. Based on the format of the ESD,[®] mount it in the right holes on the ULTRA SLIM.

Installation Instructions:

1. Fix the tubes to the base with M8x25mm screws.
2. Screw and fix the sides covers to the tube with M6x16mm screws.
3. Pass the cable through the holes of the base and hide it with the magnetic cover.
4. Remove the screws from the side holes of your ESD[®]. Then, mount it by screwing it into the corresponding holes on the sides plates. To ease the installation, place it on top of the magnetic covers.
